<https://github.com/FatemeBagherzad>

SKILLS

- JavaScript, HTML, SASS and CSS
- Node.js, Express, React
- MySQL
- MongoDB, Mongoose
- User Authentication, OAuth
- Git and GitHub
- Web APIs
- Document Object Model (DOM) APIs
- Postman
- Agile Development, Jira
- Heroku
- 2D&3D software like Adobe Photoshop, 3ds Max, AutoCAD, Catia, Mechanical, Adobe Premier

FAMILIAR

- AWS
- Docker
- Playwright
- Jest
- GitHub Actions

PROFILE

Software Engineer with a strong foundation in full-stack development, mathematics, and problem-solving and software QA. With a background in design and engineering, I bring a structured and detail-oriented approach to development and automated testing. A self-starter who transitioned into software engineering through hands-on projects and self-study, demonstrating strong communication and collaboration skills. Eager to contribute and grow in a dynamic environment.

EXPERIENCE

Teacher Asistant | BrainStation

Feb 2024 – Sep 2024, Toronto, Canada

- Assisting students in the development and implementation of MVC architecture using MySQL, Node.js, Knex, Express and React.
- Helping students in understanding Agile development concept and Scrum and the importance of communication using Jira, Slack, Git and GitHub pull request reviews.
- Helping students implementing their projects end to end that must have included using Web APIs, User Authentication, OAuth, JavaScript, HTML, SASS and CSS, MySQL, Node.js, Knex, Express and React.
- Automating student's final projects deployment using Heroku.
- Using Docker to bring up multiple environments in my own test environment to review student projects more efficiently.
- Proficient in API testing and automation using Postman and Newman
- Familiar with the concept of unit tests using Jest.
- Developing responsive websites based on Figma design specifications.

2D & 3D Design Lead | Abgineh

Tehran, Iran

- Bridged customers and production to finalize optimal 3D models and designs.
- Creating a 3ds Max cluster to reduce the rendering cost and time by 50%.
- Optimizing an existing 3ds MAX Script to automate object creation in a 3d modeling project.

Senior 3D Designer & Animator | Day Poshtiban Saze

Tehran, Iran

- Designed interior layouts and exterior elevations using AutoCAD, 3ds Max, and Photoshop, enhancing customer communication and speeding market delivery.

3D Designer & Animator | TAPCO

Tehran, Iran

- Optimized car production line sections through 2D/3D design, modeling, and animation using AutoCAD, 3ds Max, and Adobe Suite, enhancing stakeholder project understanding.

EDUCATION

BrainStation | Diploma, Software Engineering

Apr 2023 - Nov 2023, Toronto, Canada

IUST | Bachelor's degree, Pure Mathematics

Tehran, Iran

PROJECTS

Full stack developer | BrainStation Capstone Project

- Designed and built a full-stack web application, initially using MongoDB but later transitioned to MySQL to better handle relational data structures.
- Integrated Google Maps API for location-based features and managed API calls efficiently.
- Implemented user authentication, data persistence, and RESTful API integration while optimizing performance.
- Used Agile principles, Git version control, and best coding practices throughout development.
- Conducted API testing and automation with Postman to ensure reliability and functionality.
