SKILLS

Frontend:

- JavaScript (ES6+), HTML5, CSS3, SCSS
- React, React Router, Axios, Vite
- Responsive Design, Figma
- Accessibility Standards (WCAG 2.1, AODA)

Backend:

- Node.js, NPM, Express.js
- REST APIs, API Integration
- JWT, User Authentication

Databases:

- MySQL, Knex.js
- Relational Schema Design
- Data Modeling

AI & Automation:

- AI-assisted development workflows
- Prompt engineering and AI tooling

DevOps & Cloud:

- Docker, Heroku, Linux, AWS EC2
- CI/CD workflows

Testing & Tools:

- Git, GitHub, version control
- Postman, Jest
- Jira, Agile/Scrum

PROFILE

Full-stack Software Developer with 4+ years of experience building web applications using React, Node.js, Express, and MySQL. Strong frontend focuses with experience developing responsive user interfaces, integrating REST APIs, and shipping production features in Agile environments.

Passionate about AI-powered products, modern LLM workflows, and building reliable, scalable user experiences.

EXPERIENCE

Software Developer | Auto Farm Inc.

Jan 2022 – Jan 2026, Toronto, Canada

- Built and maintained full-stack business applications using React, Node.js, Express, and MySQL to support internal operational workflows
- Developed and integrated **RESTful APIs** with React frontend components to deliver reliable and responsive user experiences
- Designed and optimized **relational database** schemas using MySQL and Knex.js, improving data integrity and application performance
- Deployed and maintained **containerized** applications using Docker and cloud-based environments including Heroku and AWS EC2
- Participated in Agile ceremonies including sprint planning, daily standups, and retrospectives
- Collaborated with cross-functional teams including product, QA, and design to refine features and improve application usability

Teaching Assistant | BrainStation

Feb 2024 – Sep 2024, Toronto, Canada

- Mentored students in **full-stack MVC development** using Node.js, Express, React, Knex.js, and MySQL
- Guided student projects from wireframe to deployment, emphasizing **responsive and accessible UI development**
- Supported **CI/CD workflows**, API testing, and debugging using Git, GitHub, Jira, and Slack
- Applied **Agile/Scrum methodologies** throughout the program curriculum

EDUCATION

BrainStation | Diploma, Software Engineering

Nov 2023, Toronto, Canada

IUST | Bachelor's degree, Pure Mathematics

December 2015, Tehran, Iran

PROJECTS

Auto Farm Inc. Rabva Interactive Workflow Platform

- Built a high-performance interactive workflow and graph editor in React and Vite with drag-and-drop interactions, zooming, contextual menus, and responsive desktop/mobile support
- Developed a customizable UI system with theming, internationalization, right-to-left language support, and persistent user preferences
- Implemented end-to-end authentication flows including registration, login, password recovery, session management, and user profile features
- Built automated Playwright testing workflows for desktop and mobile scenarios using AI-assisted development tooling
- Developed AI-assisted engineering workflows that improved testing efficiency and reinforced frontend architecture consistency
